Monday 30<sup>th</sup> April 2018

Dear Parents/Carers,

This year, the Government are continuing to provide Sports Premium funding for Physical Education which is to be used to make additional and sustainable improvements to the quality of PE and Sport we offer. The impact of this funding should highlight an increase in participation, attainment, standards and progress of all pupils.

As we want to ensure that this money benefits pupils at Brookland Junior School as best as possible, we would appreciate you and your child taking time to fill in the questionnaire online.

At Brookland Junior School we aim to:

- Engage all children in regular physical activity
- Raise the profile of PE across the school
- Provide a broad range of sporting activities and clubs at lunchtimes and after school
- Improve and add to our existing sporting equipment to offer a more inclusive and broader PE Curriculum.
- Increase participation in competitive sport; both inter and intra competitions across a variety of sports.
- Increase confidence, knowledge and skills of all staff in teaching PE and Sport.

To support us in achieving our aims and determine how to most effectively spend future funding to suit the children at our school, we would appreciate feedback from our parents on our current PE provision. This involves PE taught across the school day, after school sports clubs offered and competitive sporting events.

We would welcome both positive feedback and areas for development in order to help us provide the most effective PE and Sports Programme that we can for the pupils at Brookland Junior School. Please cut and paste this survey link into your browser to give us your feedback.
